San Rafael, CA

July 19, 1994

Dear Gerry,

On the 5th of July, you tendered your resignation, effective July 15, 1994, from the staff and the board of the Point Foundation. You suggested, that this would be the most effective way to preserve our ability to accomplish tings. At that time, I told you that I would have to get back to you on the timing of your departure. As you'll remember, I had several other very difficult matters to deal with. I apologize for my delay in responding to you.

I accept your resignation from the staff and Board of the Point Foundation effective immediately.

We did some remarkable things while you were with Point. In hindsight, I cannot thank you enough for your tireless and imaginative work. From wading through the Well transaction as a Board Member to taking charge of grants, development, circulation and the imprint, your efforts were tireless and full of passion and commitment. The Millennium Whole Earth Catalog will permanently bear the stamp of your hard work and wonderful ability to find a solution where none appears to exist.

I know that the other members of the board share the deep sense of gratitude I feel for your efforts. Good luck in your future endeavors.

Sincerely,

John R. Sumser
